16 The diagram shows the view of a room heated by a radiator. The arrowed line from X to Y is the path of the convection current in the air.

Which row about the air temperature and the air density at X and at Y is correct?

	air temperature	air density
A	higher at X	higher at X
B	higher at X	higher at Y
C	higher at Y	higher at Y
D	higher at Y	higher at X
