

28 A beam of white light is incident normally on a diffraction grating.

Three bands of bright fringes are formed on a screen, labelled 1, 2 and 3 as shown.

What are the colours of the fringes seen on the screen?

- A**
- | | | |
|---------------------|-------|---------------------|
| continuous spectrum | white | continuous spectrum |
| red ← → violet | | violet ← → red |
| 1 | 2 | 3 |
- B**
- | | | |
|---------------------|-------|---------------------|
| continuous spectrum | white | continuous spectrum |
| violet ← → red | | red ← → violet |
| 1 | 2 | 3 |
- C**
- | | | |
|---------------------|---------------------|---------------------|
| continuous spectrum | continuous spectrum | continuous spectrum |
| red ← → violet | red – violet – red | violet ← → red |
| 1 | 2 | 3 |
- D**
- | | | |
|---------------------|-----------------------|---------------------|
| continuous spectrum | continuous spectrum | continuous spectrum |
| violet ← → red | violet – red – violet | red ← → violet |
| 1 | 2 | 3 |
