20 Light refracts as it enters glass from air, as shown.

Which expression is equal to the refractive index of glass?

A $\dfrac{\sin\theta_1}{\sin\theta_2}$ **B** $\dfrac{\sin\theta_1}{\sin(90° - \theta_2)}$ **C** $\dfrac{\sin(90° - \theta_1)}{\sin\theta_2}$ **D** $\dfrac{\sin(90° - \theta_1)}{\sin(90° - \theta_2)}$
