9 A car is travelling at a speed of 8.0 m / s.

The kinetic energy stored in the car is 32 000 J.

What is the kinetic energy stored in the car when its speed increases to 16 m / s?

A 16 000 J **B** 32 000 J **C** 64 000 J **D** 130 000 J
