**37** A planet in the Solar System is at the point in its orbit where it is closest to the Sun.

Which row is correct?

| | orbital speed | energy in gravitational potential store |
|---|---|---|
| **A** | at its maximum | at its maximum |
| **B** | at its maximum | at its minimum |
| **C** | at its minimum | at its maximum |
| **D** | at its minimum | at its minimum |
