5 Three liquids P, Q and R have different densities and do not mix. The liquids are placed in a measuring cylinder and allowed to settle. A small block is then dropped into the measuring cylinder and comes to rest, as shown.

Which statement about the density of the block is correct?

A It is equal to the density of Q.

B It is greater than the density of P.

C It is greater than the density of R.

D It is less than the density of Q.
