14 A hinged trapdoor is held closed in the horizontal position by a cable.

Three forces act on the trapdoor: the weight *W* of the door, the tension *T* in the cable and the force *H* at the hinge.

Which list gives the three forces in **increasing** order of magnitude?

A *H*, *T*, *W**B** *T*, *H*, *W**C** *W*, *H*, *T**D** *W*, *T*, *H*
