9 A ball is dropped onto horizontal ground and bounces vertically upwards. When the ball is in contact with the ground, the following forces act:

- the weight *W* of the ball
- the contact force *P* exerted on the ground by the ball
- the contact force *N* exerted on the ball by the ground.

When the ball is in contact with the ground, the ball is momentarily stationary.

At this instant, which relationship is correct?

A $N = P + W$ **B** $N > P + W$ **C** $N = W$ **D** $N > W$
