17 An object of mass 0.40 kg is projected into the air and follows a curved path above horizontal ground.

The object takes a time of 1.5 s to move along its path. The object lands a horizontal distance of 18 m from its initial position. Air resistance is negligible.

What is the kinetic energy of the object at its maximum height?

A 0 J **B** 2.4 J **C** 11 J **D** 29 J
