21 When a force of 0.80 N is applied to a spring, the length of the spring is 90 mm.

When a force of 1.30 N is applied to the same spring, its length is 115 mm.

The spring obeys Hooke's law.

What is the spring constant of the spring?

A $8.9\,\text{N m}^{-1}$ **B** $10\,\text{N m}^{-1}$ **C** $11\,\text{N m}^{-1}$ **D** $20\,\text{N m}^{-1}$
