13 A uniform rod of length 30 cm and weight 5.2 N is attached to a wall by a hinge at one end.

The other end of the rod is supported by a wire so that the rod is horizontal and in equilibrium.

The wire is at an angle of 40° to the horizontal.

What is the tension in the wire?

A 3.4 N **B** 4.0 N **C** 6.8 N **D** 8.1 N
