

15 A horizontal uniform rod of length 10.0 cm is shown.

The rod is acted on by its weight  $W$  and by three forces  $F_1$ ,  $F_2$  and  $F_3$ .

The rod is in equilibrium. All the forces are vertical.

$$F_2 = \frac{4}{3} F_3$$

What is the ratio  $\frac{F_1}{F_2}$ ?

**A**  $\frac{1}{4}$

**B**  $\frac{1}{2}$

**C** 1

**D** 2
