

13 The diagram shows a uniform plank XY of length 4.0 m and weight 300 N.

The plank rests on fixed supports at its ends X and Y.

A child of weight 600 N stands in different positions on the plank.

The support at end X exerts a force F vertically upwards on the plank.

What is the magnitude of F when the child stands at X and when the child stands at Y?

	F/N when child is at X	F/N when child is at Y
A	600	0
B	600	150
C	750	0
D	750	150

14 Which relationship is used in the derivation of the equation shown?
