2 An object moves in a straight line.

The energy in the kinetic store of the moving object is 90 J.

The momentum of the object is 60 kg m / s.

Which quantities are vector quantities and what is the mass of the object?

	vector quantities	**mass / kg**
A	energy and mass	20
B	energy and mass	30
C	momentum	20
D	momentum	30
