17 Two students stand facing each other at position P and at position Q. The students hold the ends of a piece of rope.

The student at P moves one end of the rope up and down to send a wave along the rope towards the student at Q.

Which row shows what is transferred from P to Q by the wave and what is **not** transferred from P to Q by the wave?

	what is transferred from P to Q	**what is not transferred from P to Q**
A	energy and particles in the rope	wave peaks and troughs
B	energy	particles in the rope
C	particles in the rope	energy and wave peaks and troughs
D	particles in the rope and wave peaks and troughs	energy
