34 In a nuclear fusion reaction, a hydrogen-2 nucleus joins with a hydrogen-3 nucleus to produce nucleus X and particle Y.

$$^{2}_{1}\mathrm{H} + {}^{3}_{1}\mathrm{H} \rightarrow \mathrm{X} + \mathrm{Y}$$

Which row identifies nucleus X and particle Y?

	nucleus X	particle Y
A	$^{5}_{1}\mathrm{He}$	$^{0}_{-1}\beta$
B	$^{5}_{2}\mathrm{He}$	$^{0}_{-1}\beta$
C	$^{4}_{2}\mathrm{He}$	$^{1}_{0}\mathrm{n}$
D	$^{5}_{1}\mathrm{He}$	$^{1}_{0}\mathrm{n}$
