1 **(a)** Figure 1.1 shows a speed–time graph for a car journey.

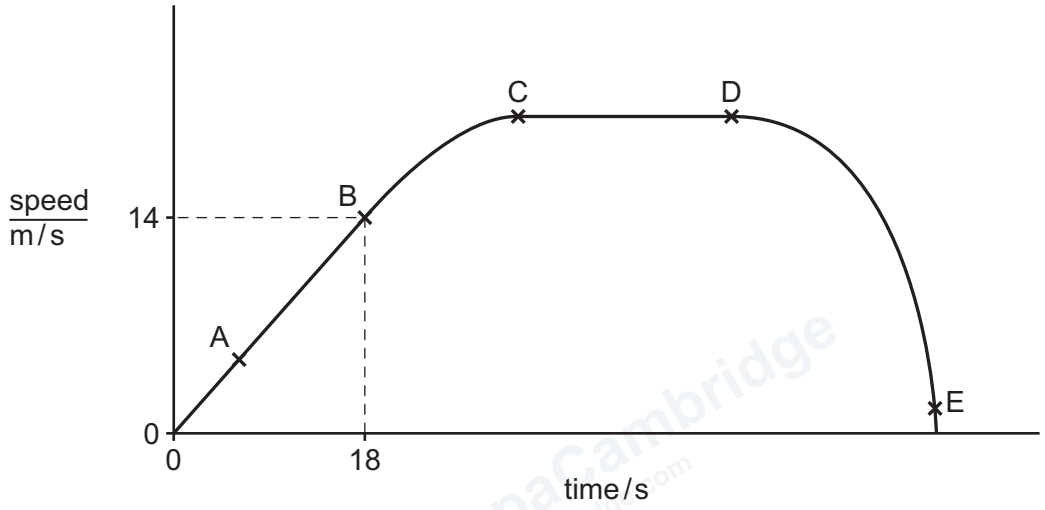

Figure 1.1

(i) State the motion of the car between:

A and B .....

C and D .....

D and E .....

[3]

(ii) Calculate the distance travelled between time = 0 and time = 18 s.

distance = ... m [2]

(b) Velocity is a vector quantity.

(i) Complete the sentence.

A vector quantity has magnitude (size) and ..... . [1]

(ii) Draw a line under each of the quantities in the list that is a vector quantity.

acceleration **electric field strength** **energy**

mass **time** **weight**

[2]

[Total: 8]
